

# ISHAN MORWAL

## Professional summary

AI data annotator with ~6 months contractual experience on high-volume NLP and audio projects. Hands-on RLHF evaluation, rubric design, rationale writing and dataset QA. Strong language sensitivity (copywriting/editorial background) with proven ability to produce consistent, guideline-aligned annotations for model training.

## Experience

**AI Data Annotator (Freelance / Contract)** — DataAnnotation.tech; WeLocalize  
Sep 2025 – Present

- Performed NLP and audio annotation tasks for LLM training; maintained guideline compliance across batches.
- Conducted RLHF-style evaluations: reviewed model outputs, produced structured rationales, and scored responses per rubric.
- Wrote and refined rubrics and judgement criteria to improve inter-annotator consistency and downstream training signal.

**Executive Content Writer (Contract)** — Cognus Technology  
Apr 2025 – Aug 2025

- Produced SEO articles, blog content and edited AI-generated drafts to improve naturalness and user tone.
- Applied editorial judgement to make machine outputs read human and context-appropriate.

## Skills & core competencies

- RLHF evaluation · Rationale writing · Rubric design
- Model output QA: hallucination detection, factuality checks, safety & policy alignment
- Content editing · Tone & localization sensitivity (microcopy, UX copy)
- Tools & formats: annotation platforms, spreadsheets/CSV/JSONL workflows (familiar)

## Education

Manipal University Jaipur — Master of Computer Applications (in progress), expected 2026

## Selected highlights

- Strong written communication and analytical explanation skills (useful for RLHF rationale clarity and rubric drafting).
- Published creative writing (poetry anthology) — deep sensitivity to language, tone and rhythm (valuable for high-quality language annotation).
